

50 Things Your OpenClaw Agent Can Do

Read through this list and notice which ones make you think “wait, it can do that?” Those are the ones to try first.

PRODUCTIVITY

Get more done

- 01 Summarise a long document and give you the key takeaways in 30 seconds.
- 02 Sort, rename, and organise a messy folder of files based on your rules.
- 03 Create a daily to-do list from your calendar, emails, and notes.
- 04 Set a reminder that actually understands context, not just a time.
- 05 Track your habits and give you a weekly progress report.
- 06 Plan your week based on your calendar and priorities.
- 07 Turn voice notes into clean, formatted text.
- 08 Compare two documents and tell you what changed.

EMAIL & COMMUNICATION

Own your inbox

- 09 Read your inbox and flag the emails that actually need a reply.
- 10 Draft replies to emails in your tone of voice, ready for your approval.
- 11 Send a follow-up to anyone who hasn't replied in 3 days.
- 12 Write a professional email from a rough set of bullet points.
- 13 Unsubscribe from newsletters you never read.
- 14 Summarise a long email thread into a single paragraph.
- 15 Draft a cold outreach email for a potential client or partner.
- 16 Send you a daily digest of what came in overnight.

RESEARCH & MONITORING

Stay informed

- 17 Research a topic and save a full report to your drive.
- 18 Monitor a competitor's website and alert you when something changes.
- 19 Find the latest news on any topic and send you a summary every morning.
- 20 Compare pricing across multiple providers and give you a recommendation.
- 21 Look up a company before a meeting and give you a one-page briefing.
- 22 Fact-check a claim and tell you what the sources actually say.
- 23 Pull together information from multiple sources into a single document.
- 24 Track industry trends and send you a weekly roundup.

Every single one of these is possible today with OpenClaw. Pick the ones that excite you the most and try them first.

Content, Scheduling & Advanced

From writing to automation to building real tools.

CONTENT CREATION

Write and create

- 25 Write a blog post from a single idea or outline you give it.
- 26 Turn one article into social media posts for three platforms.
- 27 Proofread and improve anything you've written.
- 28 Write product descriptions from a list of features.
- 29 Create a newsletter draft from your notes and links.
- 30 Rewrite a paragraph in a different tone or for a different audience.
- 31 Generate titles and headlines for your content.
- 32 Write a script for a video or presentation from your outline.

SCHEDULING & AUTOMATION

Set it and forget it

- 33 Wake you up with a morning briefing of your day ahead.
- 34 Check your calendar every evening and tell you what's coming tomorrow.
- 35 Run a weekly report on your spending, tasks, or any metric you track.
- 36 Post a status update to your team every Friday automatically.
- 37 Check if any important deadlines are coming up and warn you.
- 38 Run a health check on your server every morning.
- 39 Send you a weekly summary of everything your agent did for you.
- 40 Back up important files to your drive on a schedule you choose.

ADVANCED & POWER USE

Go further

- 41 Build a landing page from a description and a screenshot.
- 42 Connect to your Google Workspace and manage calendar, docs, and email.
- 43 Create a personal knowledge base from your notes and documents.
- 44 Browse the web, find information, and bring it back to you.
- 45 Run multiple tasks at once using sub-agents for speed.
- 46 Build a custom dashboard you can check from your phone.
- 47 Fill out forms and spreadsheets from information you give it verbally.
- 48 Manage a project board with tasks, deadlines, and status updates.
- 49 Learn your preferences over time and get better the more you use it.
- 50 Do all of this from your phone, through Telegram, while you're walking the dog.
